

Corps of Engineers/Consultants Coordinating Committee Partnering Agreement

Membership

The U. S. Army Corps of Engineers/ Architect and Engineers Coordinating Committee is composed of representatives of the Corps of Engineers, South Pacific Division, its Districts and representatives of architects and engineers that work within the South Pacific Division's boundaries.

Mission Statement

The U.S. Army Corps of Engineers/ Architect and Engineers Coordinating Committee exists to enhance the missions of the Corps' customers by providing quality architectural, engineering and consulting services to our customers within the South Pacific Division Boundaries through open communications, workshops, and seminars.

Goals and Objectives

- * Cause the U. S. Army Corps of Engineers (USACE) to be the federal agency of choice from amongst it's potential customers within the South Pacific Division.
- * Foster a partnership between USACE and the private sector so that the private sector is an integral part of the success of USACE.
- * Develop mechanisms to increase quality and value of our engineering products and services.
- * Promote technical excellence.
- * Invest in the future by promoting continuing education, research and development.
- * Continually discuss the changing roles and needs of USACE and the private sector.
- * Advocate qualification-based selection for the procurement of A-E services.
- * Improve communications and teamwork to achieve a uniform and an efficient business environment.
- * Enhance the ability of small businesses and special emphasis groups to work with USACE.
- * Survey customer perceptions of our products to increase their satisfaction and improve our performance.
- * Facilitate designer involvement during construction.
- * Communicate to our customers and constituents the results of our committee's efforts.
